

東立面図

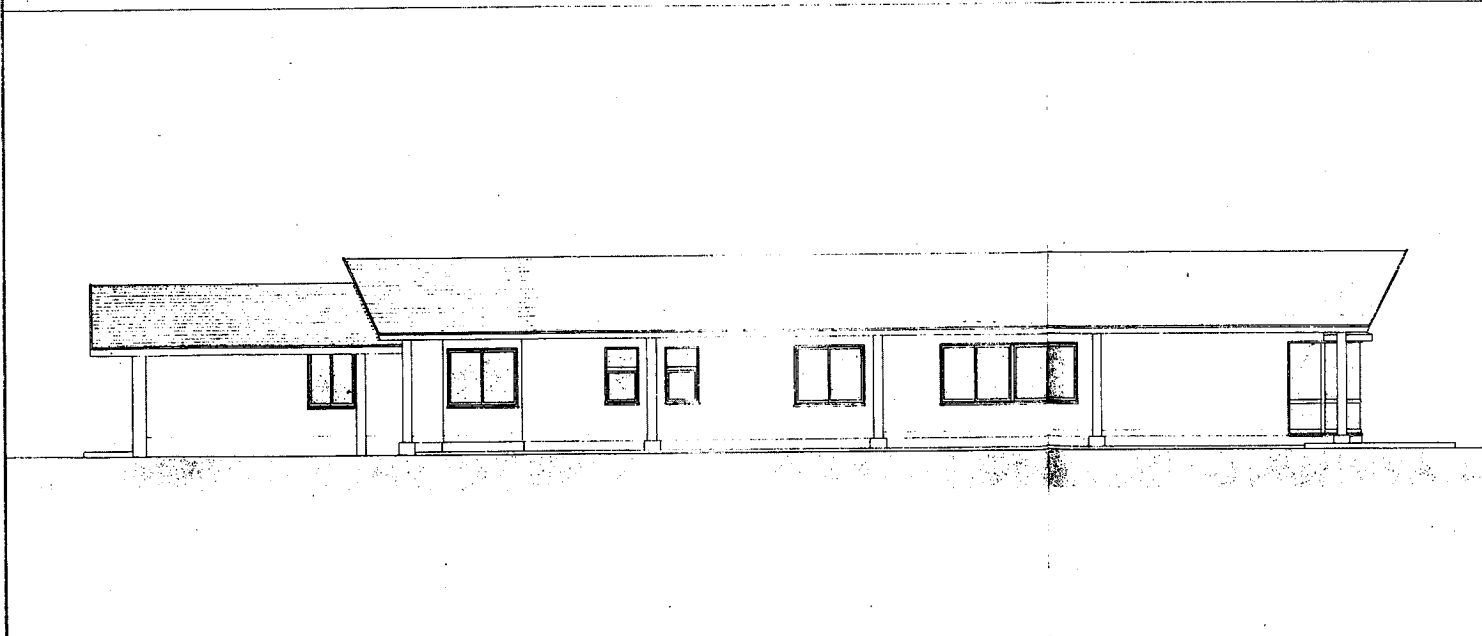

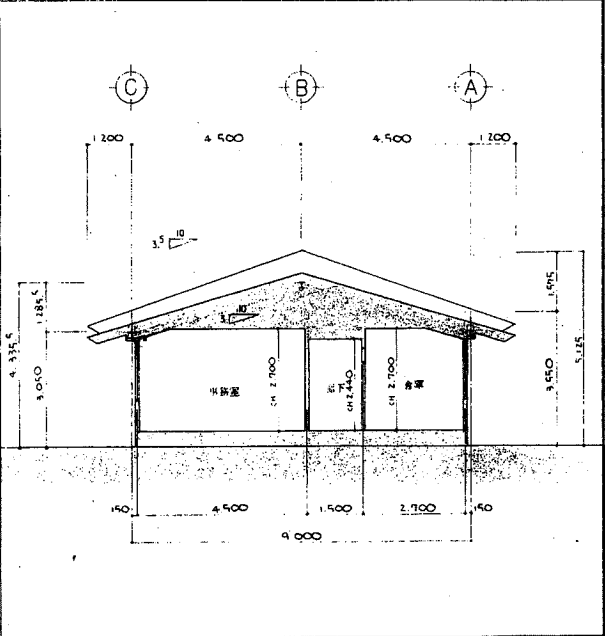

北立面图

The drawing shows the north elevation of a building. It features a gabled roof with a wide overhang. The main facade is composed of a large window unit divided into three vertical sections, each containing two horizontal panes. Above this window unit, centered under the gable, are two small, circular decorative elements. The building is shown resting on a ground line indicated by a horizontal line with a stippled pattern below it.

This is a black and white architectural elevation drawing of a long, single-story building. The building features a flat roof and a series of vertical structural columns. From left to right, the elevation includes: a small section with a flat roof and a single window; a larger section with a flat roof and two windows; a section with a flat roof and two windows; a section with a flat roof and two windows; a section with a flat roof and two windows; a section with a flat roof and two windows; and a final section on the right with a flat roof and a double door entrance. The drawing is a technical sketch showing the building's form and window placement.
